Data Sharing

24/7

Instant Access

## WHAT YOUR PRIVATE AI ASSISTANT CAN DO

### Like Having a Senior Associate Who Never Sleeps

Your private AI processes your documents efficiently to provide intelligent responses while keeping your data completely secure.

#### Fast Case Research & Analysis

Ask questions about your cases and get quick answers across all your files.

- ✓ Search decades of files in seconds
- ✓ Find relevant rulings quickly
- ✓ Identify patterns across cases

#### Document Summarization & Review

Upload any legal document and get key points and risk analysis in seconds.

- ✓ Summarize 100-page docs in moments
- ✓ Automatically identify key provisions
- ✓ Identify risks and red flags

#### Contract Intelligence & Analysis

AI reads every contract to find clauses and spot unusual terms.

- ✓ Find similar clauses in seconds
- ✓ Spot non-standard terms
- ✓ Track obligations and deadlines

#### Automated Workflow Integration

Auto-process documents and notify your team via Slack or email.

- ✓ Auto-process uploads
- ✓ Smart team notifications
- ✓ Complete audit trail

# Complete Privacy & Control

Unlike ChatGPT or Claude, your data never leaves your control

Your AI system is completely private and self-contained. No data is ever sent to OpenAI, Anthropic, or any third-party AI service. Everything runs on your own secure infrastructure.

## Zero Data Sharing

Your documents and conversations never leave your private system. No training data for other companies.

## Full Compliance

Built to meet strict legal data policies, attorney-client privilege, and regulatory requirements. No GDPR concerns – your data never leaves your system.

## Complete Audit Trail

Every interaction is logged and tracked for compliance and security purposes.

## Your Own Infrastructure

Runs on dedicated, secure servers that only your firm has access to.

## How Your Private AI Assistant Works

Simple interface, powerful intelligence, complete privacy

### Upload Your Documents

Securely upload case files, contracts, depositions, and legal documents to your private system

### AI Processes & Learns

Your AI reads and understands every document, building a comprehensive knowledge base of your firm's work

### Ask Questions & Get Answers

Use the simple chat interface to ask complex questions and get detailed, sourced answers from your documents

### Automated Workflows

Set up automatic document processing, team notifications, and case updates that work seamlessly with your existing tools

## Why Choose Private AI Over Public Services

### Your Private AI Assistant

- ✓ Your data stays completely private
- ✓ Learns from YOUR legal documents only
- ✓ Full compliance with legal data policies
- ✓ Complete audit trail and control
- ✓ Works with your firm's specific cases
- ✓ No monthly usage limits
- ✓ 24/7 availability on your terms

### ChatGPT / Claude / Public AI

- ✗ Your data used to train their models
- ✗ Cannot access your specific documents
- ✗ Potential compliance violations
- ✗ No control over data usage
- ✗ Generic legal knowledge only
- ✗ Usage limits and restrictions
- ✗ Terms can change without notice

# AI × Law Expertise You Can Trust

In collaboration with AI and law expert – Mikołaj Ryśkiewicz, PhD candidate in law at the University of Warsaw and researcher in the field of AI in law, computational linguistics and NLP

## Key Credentials:

- ✓ Co-Founder & Head of AI Research at Cogniva
- ✓ Leading expert in AI ethics and legal compliance
- ✓ Deep expertise in data science and empirical research
- ✓ Specialized in regulatory-compliant AI implementations

## Legal-First AI Design

Every system designed with attorney-client privilege and legal data policies at its core

## Compliance-Native Development

Built-in understanding of legal industry regulations and ethical requirements

## Research-Backed Solutions

AI implementations grounded in empirical research and proven methodologies

## How We Work Together

### Step 1

 Free Consultation Call

Meet with our team to discuss your needs, answer questions, and address any concerns you may have

### Step 2

 Custom Quote

Receive detailed pricing via email covering development costs and ongoing maintenance

### Step 3

 Contract Signing

Sign the service agreement with clear terms

### Step 4

 20% Advance Payment

Pay 20% of the development costs to begin development of your private AI system

### Step 5

 Solution Development

Our team builds your custom private AI assistant tailored to your firm's needs

### Step 6

 Deployment & Setup

We deploy and configure your AI system on your secure infrastructure with full training

### Step 7

 Final Payment

Complete payment of the remaining 80% of the development quota once your system is fully operational

### Step 8

 Ongoing Maintenance

Continuous support ensuring uptime, resolving issues, and system optimization (billed monthly)
